Technical Skills

Languages

- JavaScript / HTML5 / CSS3
- Ruby
- Python
- Dart
- SQL

Frameworks & Libraries

- Vue.js
- Ruby on Rails
- React
- FastAPI
- SQLAlchemy
- Bootstrap/Tailwind CSS

Databases

- Postgres
- BigQuery
- MongoDB

Testing & Automation

- Vitest
- Rspec
- Playwright
- Zephyr Scale

Tools

- Git / Github
- Claude / LLM Agents / CamelAI
- Cloud & Containers - Docker, GCP, Heroku
- CI/CD - Github Actions, Netlify, CircleCI, Codemagic

Career Summary

Software engineer with 6+ years of experience developing production web applications using Ruby on Rails, Vue.js, and PostgreSQL. Delivered scalable APIs, improved test coverage and deployment pipelines, and resolved complex production issues to enhance system reliability. Focused on building maintainable systems and improving team efficiency through better tooling and workflows.

Experience

Software Engineer II - onDiem

September 2020 - Present

- Led the frontend architectural migration of customer-facing applications from Vue 2 to Vue 3, developing robust API clients for seamless backend integrations.
- Architected and enhanced Ruby on Rails backend services, creating complex API endpoints and driving broader structural system changes.
- Designed and deployed containerized data infrastructure on Google Cloud using Python and Docker, building ETL pipelines to seamlessly integrate application data into BigQuery for enhanced analytics.
- Engineered custom Ruby Rake tasks and optimized SQL queries to process data files and manage backend database updates.
- Leveraged Claude AI agents to accelerate the engineering lifecycle, autonomously scaffolding boilerplate code, and assisting in complex refactoring and architectural planning.
- Established an automated QA testing ecosystem using Playwright and Vitest, integrating test execution with GitHub Actions and Zephyr Scale to improve coverage and reliability.
- Enhanced internal operational tooling by building advanced data management features and improvements within the Administrate dashboard.
- Developed and shipped cross-platform mobile features for the Flutter/Dart application.
- Resolved high-priority production incidents and continuously implemented feature improvements to enhance overall platform stability.

Web Developer - WayForth

November 2018 - March 2020

- Coordinated and executed the redesign and deployment of a customer-facing Vue.js web application.
- Maintained and enhanced the front-end codebase using HTML, CSS, and JavaScript.
- Developed transactional email endpoints, templates, and user mailers using Ruby.
- Designed and implemented responsive web pages following UX/UI best practices and SEO principles.
- Built customer acquisition funnel pages using Vue.js and Bootstrap to support marketing and conversion workflows.
- Updated marketing website content in WordPress using PHP.

Web Applications Developer - Seattle University Lemieux Library

April 2018 - October 2018

- Built, updated, and maintained Lemieux Library websites and web applications using HTML, CSS, and JavaScript.
- Managed website content and updates through the university's TerminalFour (T4) content management system and server environment.
- Evaluated library websites and identified opportunities for usability and performance improvements.
- Gathered user requirements and feedback to help define website functionality and future feature development.
- Collaborated with content owners and authors to ensure the library's web presence remained accurate, accessible, and user-centered.

Content & Marketing Assistant - Seattle University College of Education

October 2017 - April 2018

- Built and maintained website content using a CMS and custom HTML/CSS to improve the College of Education's web presence.
- Developed 12 responsive landing pages for university programs using HTML5 and CSS3.
- Managed website updates and source code changes through the TerminalFour (T4) content management system.
- Created and scheduled social media content to promote college events and initiatives.

Education

Seattle University

September 2017 - September 2018

Web Development Certification

University of California, Davis
Bachelors of Arts, Psychology

September 2013 - June 2015
